About Lovell Safety Management

For nearly nine decades Lovell Safety Management Co., LLC has been providing businesses safe, secure, comprehensive solutions for their NY workers' compensation insurance coverage.

Lovell's fully insured, not-for-profit safety group programs combine members' annual workers' compensation premiums and then deduct the cost of claims and administrative charges. Any money left over after accounting for future loss development is available for payment of a dividend. To date, members of Lovell Safety Groups have received over \$1.19 billion in dividend payments.

The key to our success is in the services we provide. Lovell carefully underwrites its groups providing a comprehensive set of claims & safety services to group members. Our safety professionals help members avoid accidents, while our claims professionals ensure that members' claims are paid promptly or defended vigorously as circumstances dictate. These services produce the underwriting profits that get returned to members through dividend payments.

Our long history & comprehensive services distinguish us from other programs. Ask your broker if you qualify for a Lovell Group. Our past achievements point toward our continued success & yours!
